MODERN LUXURY SPOTLIGHT

INFLUENTIAL WOMEN IN MEDICINE

DR. MARY HURLEY

When board-certified dermatologist Dr. Mary Hurley started her practice 21 years ago, it was, as she affectionately calls it, "a little candy shop". Now, the team at North Dallas Dermatology Associates offers a comprehensive array of medical, surgical and cosmetic dermatology services for all ages and skin types - an amazing career trajectory for one of Dallas' Best Doctors 18 years running. Amidst her bustling practice, Dr. Hurley spends her time raising her five children. We'd call her Wonder Woman, but she forgoes magical powers for plain old hard work, dedication, and passion for her job. "I love to make people happy. I find it so rewarding and gratifying to make people feel confident about themselves and the skin they are in," she shares. "It's what gets me up and going every day, to hear the positive feedback from my patients and the impact that their results have on their lives." With extensive training in cosmetic injectables and laser surgery, she specializes in aesthetic dermatology, which she calls her "art," to create beautiful, natural faces that make people feel good. Dr. Hurley loves to build relationships with her patients over time to create the beautiful transformations they desire to look and feel their best and age gracefully.

"HEALTHY SKIN IS BEAUTIFUL SKIN"

"Sometimes minor adjustments can make a world of difference to boost someone's self esteem and quality of life. We try to make a positive impact on everyone's life that we touch," says Dr. Hurley. "At our Skin Health Spa and Laser Center, we offer our patients a full skin health journey, including facial rejuvenation and body contouring." While making people feel more beautiful on the inside and out, Dr. Hurley empowers others with her teaching and training. You'll always find other students, interns, residents, and doctors rotating through NDDA, soaking up her knowledge. "Every day is a learning opportunity, and I try and make every day better than the last." Wise words from someone still head over heels happy at her job—isn't that the most beautiful thing of all?
